Re: 207 North Riverside Drive, Neptune, NJ 07753  
Block 502.01 Lot 1386

Dear Ms. Armada,

I am in receipt of an Elevation Certificate and have conducted a site inspection of the above referenced location. The pilings and timber perimeter ("floor box") have been installed. The elevation to the top of the "box" is 14.34 feet. The proposed first floor of the new single family house as shown on the construction documents is 15 feet.

The General Ordinances of the Township of Neptune, Chapter XIX entitled Flood Damage Prevention requires the first floor to be at or above the base flood elevation. The base flood elevation for this location is 10 feet, but the structure is required to be elevated to 12 feet according to the regulations. The construction documents show the structure located above the timber perimeter. This would comply with the requirement to have the first floor at or above the base flood elevation.

Please do not hesitate to contact me should you have any questions or need further assistance.

Sincerely,

William J. Doolittle  
Floodplain Manager
