HEADLINE NEWS

Dear Seniors,

We begin the month of March, a time of change. We look forward to St. Patrick's Day and the parades and celebrations. Sometimes the parade days are chilly days where we need a steamy mug of hot chocolate; other times they are sunshine filled days where we enjoy the feel of the warm sun on our faces. We await the official beginning of Spring!

Spring is a time of change. We begin to get outside more often, and begin to put away our winter coats. The trees and plants start to bloom and everything feels so alive again. Perhaps we can think about what type of changes we want to make. Some of us are now determined to exercise more and lose a few pounds, others are planning outings, some planting flowers, others making things. Each of us may want to reflect on changes we wish to make and new things we wish to embrace!

We are never too old to try something new. A friend of mine taught me that several years ago. He had been married and widowed four times. He met a recent widow, courted her and at the age of 90 years began his fifth marriage. Some thought he was a bit crazy, others were wary, but they were married up until his death at the age of 98 years old. He taught me that sometimes we need to take risks in life and we can live life to the fullest up until any age!

As we prepare to begin Spring, let us think about how we can live life to the fullest! Are there things on our "bucket list" that we want to accomplish? Small things, big things, fun things? Now is the time to do pursue the dreams we still have! Enjoy your Spring!

*Peace,
Brian*
