NONCONFORMING USES, STRUCTURES, AND LOTS:

Land Development Ordinance section 422 states:

The following provisions shall apply to valid non-conforming use, structures and lots at the time of adoption of this Ordinance:

A A use, building or structure which is lawfully in existence at the effective date of this Ordinance and shall be made non-conforming at the passage of this Ordinance or any applicable amendment thereto, may be continued as otherwise provided in this section.

B No existing use, structure or premises devoted to a non-conforming use shall be enlarged, extended, reconstructed, substituted or structurally altered, unless it is changed to a conforming use or structure as follows:

1 Any non-conforming structure or use damaged to less than fifty per cent (50%) of its previous existing area or value by fire or other natural calamity, may be restored, reconstructed or used as before, provided the area of such use or structure shall not exceed the area which existed prior to such damage nor increase the intensity of use. All repairs shall be completed within one (1) year after damages occur, or within such time extensions granted by the Zoning Officer, which can only be granted upon good cause being shown by the applicant, or such use shall not be rebuilt except as a conforming use.

2 Normal maintenance and repair of a structure containing a non-conforming use is permitted, provided that it does not extend the area or volume of space occupied by the non-conforming use or structure and does not increase the intensity of use. Nothing in this section shall prevent the restoring to a safe or lawful condition any part of any structure declared unsafe by the Construction Official.

3 A building containing residential non-conforming use may be altered in any way to improve interior livability. No structural alterations shall be made which would increase the number of bedrooms or dwelling unit.

ZONING NOTES:

- The applicant is proposing a residential addition and alterations which would increase the number of bedrooms. The applicant does not display compliance with this Land Development Ordinance requirement. Zoning Board of Adjustment approval is required.

C Non-conforming uses and structures are considered terminated and shall not be revived in any way except as a conforming use or structure in accordance with the following:

1 A non-conforming use or structure abandoned in accordance with this Ordinance and accompanied by an intent on the part of the owner to abandon such use as evidenced by some act or failure to act which carries with it a sufficient implication that the owner neither claims or retains any interest in the subject matter of the abandonment shall be considered a termination thereof. Such implication shall be reputably presumed by non-use for any period of two (2) or more years. Non-use by successive owners shall be considered continuous non-use.

2 The change of a non-conforming use or structure to a more or entirely conforming use for any period of time shall be considered an abandonment of the previous non-conforming use, and a reversion to the previous non-conforming use shall not be permitted.

3 A non-conforming structure or use which has fifty percent (50 %) or more of its non-conforming area or value destroyed by fire or natural calamity shall be considered an abandonment thereof.

ZONING NOTES:

- The applicant is proposing to change the use of the front building from a four (4) unit residential into a two (2) unit residential. Changing the use of the property from a Nonconforming Multifamily Residence (two (2) buildings containing a total of five (5) units residential), into a Nonconforming Multifamily Residence (two (2) buildings containing a total of three (3) units residential).

D A nonconforming structure may not be enlarged, extended, increased in height, width or depth, moved or relocated, modified in such a way so as to increase habitable or useable space, number of dwelling units or number of bedrooms; unless such structure is changed to a structure conforming to the requirements of this Chapter except that an existing one family structure may be rebuilt, enlarged, extended or added to provided:

- 1 The enlargement, extension or addition conforms to all zone requirements; or
- 2 The portion of the enlargement, extension or addition which does not conform to zone requirements consists entirely of the enclosure of existing side or rear porches.
- 3 Where a structure is nonconforming solely because it intrudes on the current required yard area.
 1. a) If the proposed horizontal addition to that building would not protrude into that required yard area, then the Zoning Official can issue the permit and no application to the Board of Adjustment is necessary.
 2. b) If a proposed vertical addition would be located within the building envelope or existing building footprint (and assuming no violation of height restriction or other ordinance provision), the Zoning Official may also issue a permit for such vertical expansion provided that the addition would not exacerbate the nonconformity.
- 4 An existing one-family structure located in a residential district destroyed by fire or other natural calamity may be rebuilt provided the new structure complies with all zone requirements relating to setbacks and height; however, the existing lot need not comply with minimum lot width, depth and area requirements where the existing condition is non-conforming.

ZONING NOTES:

- The applicant is proposing to enlarge, extend, increase in width and depth, modify in a way to increase habitable space, usable space, and the number of bedrooms of an existing nonconforming structure. The applicant does not display compliance with this Land Development Ordinance requirement. Zoning Board of Adjustment approval is required.

-

E The prospective purchaser, prospective mortgagee, or any other person interested in any land upon which a nonconforming use or structure exists may apply for, in writing, the issuance of a certificate certifying that the use or structure existed before the adoption of the ordinance which rendered the use or structure nonconforming. The applicant shall have the responsibility of affirmatively proving the preexisting nonconforming use or structure. Application pursuant hereto may be made to the Zoning Board of Adjustment Administrative Officer within one year of the adoption of the ordinance which rendered the use or structure nonconforming or at any time to the Zoning Board of Adjustment.
