

## Public Notice of the Intent of FEMA to Fund a Project – Township of Neptune

Notification is hereby given to the public of the intent of the Federal Emergency Management Agency's (FEMA) to provide Hazard Mitigation Assistance funding to the Township of Neptune, Monmouth County for the installation of a gate valves at both the east and west outfalls for the basin, upgrade the downstream drainage structures for a 25-year capacity and de-silt the basin. This project is not located within a Special Flood Hazard Area, however the basin is a lake/pond with open water and has both floodplain and wetland habitat. By providing draining down the basin pre-storm/rainfall event, high moon tide or coastal storm, will provide more capacity for the basin to hold additional water prior to leaving the basin and will therefore minimize the flooding impact to homeowners, property and infrastructure.

Under the President's Executive Order 11988, Floodplain Management, and Executive Order 11990, Wetlands Protection, FEMA is required to review the proposed gated flood control structure and explore practicable alternative actions. FEMA is also required to evaluate opportunities to avoid, minimize or mitigation potential impacts to floodplains or wetlands. Public comment is invited on possible alternatives to this action, methods for potential impacts minimization, and on whether this project should be undertaken.

Interested persons may obtain information about this action and its specific location by contacting FEMA's Region II office, which is located in the Jacob K. Javits Federal Office Building, 26 Federal Plaza, Room 1337, New York, NY 10278-0002 or via email at [FEMAR2COMMENT@fema.dhs.gov](mailto:FEMAR2COMMENT@fema.dhs.gov). Comments about this project and the application of the Floodplain Management Executive Order should be submitted in writing to Megan Jadrosich, Regional Environmental Officer at the above address within 30 days of this notice.
