Hi Heather,

This is additional information for 52 Cookman HPC application Chris just dropped off. (picture also attached) Can you please add it to the application?

The attached picture is what the homeowner selected for colors.

- HC-4 Hawthorne Yellow
- HC-152 Whipple Blue
- HC-156 Van Deusen Blue

The cross beams (horizontal) will be yellow, as will the lattice.

The railings and flooring will be natural mahogany. The spindles will be white.

The tops and bottoms of each column will be the darker blue, Van Deusen Blue.

The decorative filigrees will be the lighter blue, Whipple Blue, and the edge of each is going to be Hawthorne Yellow.

If cutouts are necessary, they will be the same as 67 Pilgrim Pathway which is an address HPC provided, the cutouts would be Whipple Blue (just the cutout piece with white cross beams above and below). If acceptable, we would like the 2nd floor 36" railing style to match the 1st floor style, if not the cut out panel will be installed on the bottom of the 2nd floor.

The first floor railing height will be 28", the second floor rail height will be 36".

Everything else would be white.
