May 9, 2021

To Board of Fire Commissioners:

The Washington Fire Company is requesting that the reels be removed from the Saulsbury in order to have a flat hose bed with dividers to make it a first due engine. Due to the age and current situation of not being able to get certain parts for the Pierce, we do not know how much longer it will be in service and would like to plan ahead for future use of the Saulsbury. Not only will it make it quite easier and faster to drop a line to a hydrant but also it will hold more hose. We have asked Scott L to get a price quote for the removal of the reels. Please find it attached to this letter. Thank you for your time and consideration.

Respectfully submitted,

Washington Secretary

To Board of Fire Commissioners:

The Washington Fire Company is suggesting to the Board that we look into the future of the apparatus assigned to the Washington Fire Company. The age and the inability to get certain parts for the Pierce Engine are a Significant concern that we like the Board to be aware of. We do not know how much longer that our Pierce Engine will be in service for. Therefore, we are merely suggesting to the Board the possibility of selling both our engines and purchasing a new one.

Thank you for your time and consideration.
