CERTIFICATION OF REVISED PLANS

Pursuant to the New Jersey Soil Erosion and Sediment Control Act; N.J.S.A. 4:24-39 et. seq., Chapter 251, P.L. 1975 and as amended by C. 264, P.L. 77 and C. 459, P.L. 79, the Freehold Soil Conservation District hereby grants certification of the revised soil erosion and sediment control plan for the above referenced project, subject to the following:

1. That the applicant carries out all land disturbance activities in accordance with the Standards for Soil Erosion and Sediment Control in New Jersey, promulgated by the State Soil Conservation Committee.
2. The owner/applicant must obtain a District issued Report of Compliance prior to the issuance of any Certificates of Occupancy by the municipality.
3. Changes in the certified plan relating to, or that will affect land disturbance on the site, must be submitted to the District office for certification.

A copy of the plan must be kept on the job site at all times.

This certification is limited to the controls specified in this plan. It is not authorization to engage in proposed land use unless the municipality or other controlling agency has previously approved such use. Also, the certification of the revisions does not constitute an extension of the original certification period for the project. Rather, it is only an acknowledgement that the changes to the plan design meet the requirements of the state standards. Failure to comply with the above conditions may result in the issuance of a **STOP CONSTRUCTION ORDER**.

Sincerely,

Ines M. Zimmerman
District Manager
