NOTE: Any items that are not applicable to a particular application shall be marked with an "N/A".

4. North arrow and written and graphic scale.
5. ~~N/A~~ The tops of the banks and boundaries of the floodways and flood hazard areas of all existing water courses, where such have been delineated or the limits of alluvial soils where the boundaries of floodways and flood hazard areas have not been determined, and/or such other information as may assist the Planning and/or Zoning Board in the determination of floodway and flood hazard area limits.
6. Paving and right of way widths of existing streets within two hundred [200'] feet of the site.
7. ~~N/A~~ The boundary, nature and extent of wooded areas, swamps, bogs and ponds within the site and within two hundred [200'] feet thereof and delineated of all wetlands soils as defined by the New Jersey Department of Environmental Protection and the U.S. Army Corp of Engineers.
8. Existing and proposed manholes, sewer lines, fire hydrants, water lines, utility poles and all other topographic features of a physical or engineering nature with the site and within two hundred [200'] feet thereof.
9. All existing structures on the site and within two hundred [200'] feet thereof including their use, indicating those to be destroyed or removed and those to remain.
10. Location, use, finished grade level, ground coverage, first floor and basement elevations, front, rear, and side setbacks of all buildings and other pertinent improvements.

11. Existing and proposed public easements or rights-of-way and the proposed use thereof, including conservation easements.
12. A grading plan showing existing and proposed grading contours at one [1'] foot intervals throughout the tract, except if slopes exceed five [5%] percent, a two [2'] foot interval may be used. If they exceed ten [10%] percent, a five [5'] foot interval is permissible. Datum shall be United States Coast and Geodetic Survey Datum [MSL=0] and source of datum and bench marks shall be noted. In addition to proposed grading contours, sufficient additional spot elevations shall be drawn to clearly delineate proposed grading.

13. On Site Drainage Plan: NO CHANGE - WAIVER

- The drainage plan shall be presented in graphic form which shall clearly show the street and site layout and those terms which are pertinent to drainage including existing and proposed contours as previously required.
- The plan shall outline each area contributing to each inlet.
- All proposed drainage shall be shown with pipe type and sizes, invert and grade or rim elevations, grades and all direction of flow. The direction of flow of all surface waters and of all streams shall be shown.
- The drainage shall be accompanied by complete drainage calculations made in accordance with the Soil Conservation Service method.

14. Off Site Drainage Plan: NO CHANGE - WAIVER

The plan shall also be accompanied by an off site drainage plan prepared in accordance with the following standards:

- The plan shall consist of an outline of the entire drainage basin in which the site is located. The terminus of the basin and existing ground contours or other basis for determining basin limits shall be shown.
 - The pertinent off site existing drainage shall be shown with elevations of inverts and grates to the nearest one tenth of a foot.
 - To the extent that information is available and maybe obtained from the County or Township Engineer, any existing plans for drainage improvements shall be shown.
 - In the event a temporary drainage system is proposed, full plans of that system shall be shown.
 - The off site drainage plans shall be accompanied by profiles of all proposed drainage, showing existing details, pipe sizes, type inverts, crowns, slopes, all proposed structures and connections and design hydraulic grade lines for all conduits designed to carry forty [40] or more cubic feet per second. Cross sections at intervals not exceeding one hundred [100'] feet shall be shown for all open channels.
15. If required by the Township Engineer, center line profiles of streets bordering the site, internal roadways, and major circulation aisles showing existing and final grades and slopes, and pipe sizes, type, inverts and grate or rim elevations of drainage and sanitary sewage facilities.

16. Soil Boring Logs: \

Unless the Township shall determine that a lesser number of boring logs are required or that some or all the boring logs may be deferred to the final plan stage, the site plan shall be accompanied by a set of boring logs and soil analyses for borings made in accordance with the following:

- One boring not less than fifteen [15'] feet below grade or twenty [20'] feet minimum depth shall be made for every five [5] acres [or portion thereof] of land where the water table is found to be ten [10'] feet or more below proposed or existing grade at all boring locations.

- One additional boring shall be made per acre [or portion thereof] in those areas where the water table is found to be less than ten [10'] feet below proposed or existing grade.
- In addition to the above, in those areas where the water table is found to be five[5'] feet or less below existing or proposed grade, two additional borings per acres [or portion thereof] will be required if construction of basement is contemplated. Borings shall be located where such basements are proposed
- Boring logs shall show soil types and characteristics encountered, ground water depths, the methods and equipment used, the name of the firm, if any, making the borings and the name of the person in charge of the boring operation. The boring logs shall also show surface elevations to the nearest one tenth of a foot.
- Based on the borings, the site plan shall clearly indicate all areas having a water table within two [2'] feet of the existing surface of the land, or within two [2'] feet of proposed grade, of all areas within which two [2'] feet or more of fill is contemplated or has previously been placed.
- Certified soil tests as a basis for design standards for pavement, pipe, bedding, etc.
- 17. Zone boundaries and the tax map sheet, lot and block numbers and the names of owners of all properties within two hundred [200'] of the site.
- 18. A key map, at a scale of not less than one [1] inch equals one thousand [1,000] feet, showing the location of the site with reference to surrounding areas, existing streets, the names of all such streets and any zone boundary or municipal boundary which is within two hundred [200'] feet of the site.
- 19. The location, area, dimensions and proposed disposition of any area or areas of the site proposed to be retained as common open space, indicating the facilities to be provided in such areas.
- 20. The capacity of off-street parking areas, and the location and dimensions of all access drives, aisles and parking stalls. The location and treatment of existing and proposed entrances and exits to public rights of way, including the possible utilization of traffic signals, channelization, acceleration and deceleration lanes, additional width and any other device necessary for traffic safety and/or convenience, and the estimated average number of passenger vehicles, single-unit trucks or buses and semi-trailers that will enter the site each day.
- 21. Graphic depiction of the anticipated routes and details of the system of on-site vehicular and pedestrian circulation.
- 22. The location and size of proposed loading docks.
- 23. The location of curbs and sidewalks.
- 24. Cross sections showing the composition of pavement areas, curbs, and sidewalks.
- 25. Exterior lighting plan, including the location, direction of illumination, amount of illumination expressed in horizontal foot candles, wattage and drawn details of all outdoor lighting standards and features.
- 26. Landscaping and screening plan showing the location, type, spacing and number of each type of tree or shrub and the location, type and size, spacing and number of each type of ground cover to be utilized and planting details for trees, shrubs and/or ground cover.
- 27. Drawn details of the type of screening to be utilized for refuse storage areas, outdoor equipment and bulk storage areas.
- 28. Floor plans and building elevation drawings of any proposed structure or structures or existing structures to be renovated.

29. Location of facilities for the handicapped, including parking spaces and ramps [where applicable], and including construction details for ramps for the handicapped.

Sectionalization and staging plan: N/A

30. Developers of large uses such as shopping centers, multifamily dwellings, industrial parks or other such uses proposed to be developed in stages shall submit Sectionalization and staging plan showing the following:
- The anticipated date of commencing construction of each section or stage.
 - Plans for separate construction emergency access for the project in order to avoid occupancy conflict.
31. Written description of the proposed operations in sufficient detail to indicate the effects of the use in producing traffic congestion, noise, glare, air pollution, fire hazards or safety hazards. The written description shall also include the hours of operation of the use, the number of shifts to be worked, the number of employees in each shift, the number of vehicles to be stored or parking on the site and provisions to be made for site maintenance.
32. Traffic analysis report and recommendations from a qualified traffic engineer.
33. Such other information as the Municipal Agency and/or Township Engineer may require during site plan review.
34. Use Group Classification of the building or structure.
35. Type of construction classification of building or structure to be erected, altered or extended, as defined by the International Residential Code or the International Building Code, New Jersey Edition.

Escrow Agreement

I/we fully understand an "Escrow Account" will be established to cover the costs of the professional services which will include engineering, legal, planning, architectural, and any other expenses incurred in connection with the review of this application before the Land Use Board.

The amount of the Escrow Deposit will be determined by the Neptune Township Land Development Ordinance, section 1000 Application and Escrow Fee, Table 10.02 Escrow Fees.

It is the policy of Neptune Township that once an Escrow Account falls below 24% of the original deposit amount, the account must be replenished to its original amount. The only exception would be when the application is nearing completion; applicant will be notified of any anticipated charges and the amount of the deposit required.

Payments shall be due within fifteen [15] days of receipt of the request for additional Escrow Funds. If payment is not received within that time, applicant will be considered to be in default, and such default may jeopardize appearance before the Board of hold up any and all pending approvals and building permits. Continued refusal will result in legal action against the property.

Also in accordance with N.J.S.A. 40:55D-53.1, all unused portion of the escrow account will be refunded upon written request from the applicant, and verification by the board's professionals who reviewed the application.

By signature below, I/we acknowledge receipt of Neptune Township's Section 1000, Application and Escrow Fees and agree to all conditions listed.
