Dear TRIDENT PATHWAY, LLC,

This is to inform you that in accordance with the New Jersey Soil Erosion and Sediment Control Act; N.J.S.A. 4:24-39 et. Seq., Chapter 251, P.L. 1975 and as amended by C. 264, P.L. 77 and C. 459, P.L. 79, a project is defined as "any disturbance of more than 5,000 square feet of the surface area of land for the accommodation of construction for which the State Uniform Construction Code would require a construction permit."

In reference to the above site, improvements to a dwelling with disturbance less than 5,000 square feet do not require certification of a Soil Erosion and Sediment Control plan. Should disturbance exceed 5,000 square feet, certification of a Soil Erosion and Sediment Control plan would be required.

If you should have any questions, please feel free to contact our office.

Sincerely,
